Hunton Highlights & Events

On Wednesday, October 2nd, 2019, Hunton Services and Hunton Trane came together to participate as a platinum sponsor for the 9th Annual TAHFM Whack 'Em & Stack 'Em Clay Shoot. This event was organized to raise money for the Texas Association of Health Facilities Management. Teams participated in the tournament and networked throughout the event. The shooting was followed by awards, raffle prizes, and a delicious barbecue dinner.

Hunton Rental Solutions: Events & Entertainment

With our extensive experience here at Hunton Rental Solutions, we know that unique situations and environments call for specialized equipment. We are pleased to offer you the temporary cooling, heating, power, and compressed air systems you need to support your event, whatever scale it may be. We can provide cooling & heating for private parties, events, concerts, sports tournaments, ice rinks, racing events, cook-offs, business expos, festivals, and more. No matter the scale of your event, we've got you covered! We can cool or heat an event as monumental as a national political debate or as intimate as a small wedding.

Energy Services: Optimizing Energy Efficiency

We are a CenterPoint Energy retro-commissioning agent. Our in-house, licensed professional engineers have developed an analytics driven process that is proven to deliver holistic facility improvement projects to our clients. By allowing us to serve as both the project agent and implementer, Hunton Services is fully responsible for your project outcome. HVAC and building controls are by far the most complex part of a building. These systems are responsible for 35-55% of the facility's energy usage. Hunton Services, with our professional engineering staff, provides our clients with operational savings on both energy and maintenance without sacrificing comfort. Let us take care of your facility so you can take care of your customer!

Industry News from Trane: Committed to Climate Action

As of this year at NYC's Climate Week, almost 300 multinational businesses with a combined revenue of US \$5.5 trillion are now driving climate action on renewable power, electric transport, and smart energy use in more than 140 markets worldwide. This year, Climate Week NYC saw its biggest turnout yet, with 20+ new signatures to the international non-profit, The Climate Group's, corporate leadership initiatives RE100, EV100, and EP100. Ingersoll Rand is thrilled to announce their joining the RE100 and EP100 initiatives with Trane Commercial and Thermo King Corporation. Together, we are leading the way on cleaner, smarter energy and driving change.
